# SECUNORM 500

NO. 50000310

Original size

**To protect your products**  
With the shortened blade, you avoid contact with your products. This means you can work without having to constantly check the cutting depth. The handle narrows at the tip so that the cutting point is always in view.

**Ergonomic handle**  
The good "Ergonomics" can be felt all over the SECUNORM 500, for example in the newly shaped handle which fits comfortably into the hand. Or in details such as the nicely rounded knife end or the non-slip soft-grip on the slider.

**Abrasion resistant**  
The robust aluminium handle is designed for the most demanding and frequent cutting tasks. Like its popular predecessor, it is a tough all-rounder capable of taking on any cutting challenge.

**Double-sided slider**  
With the predecessor, the SECUNORM PROFI, there were both left and right handed models. With the modern successor, anyone can cut effectively – with the ability to change hands when the task requires it.

**Tool-less blade change**  
Blade changing without tools. The SECUNORM 500 comes with an intuitively operated blade change button. Press once to remove the blade carrier with its securely held blade.

**The safety knife. With rounded-tip trapezoid blade and 5 mm cutting depth.**

Over 40 years ago the SECUNORM PROFI set standards in safety, robustness and ergonomics. Its successor goes several steps further. For example, the new aluminium handle significantly improves handling and makes cutting easier, the new slider can be operated from both sides and the blade change has been made so much simpler. Together these improvements combine with the proven automatic blade retraction to increase protection from cutting injuries.

**PRODUCT FEATURES**

**Technical features**

 High safety	 Safer blade change (with magnet)
 Very abrasion resistant	 Very ergonomic
 2-times usable blade	 Cutting depth 5
 Soft-grip	 For right and left hander
 Lanyard hole	 Rounded tip trapezoid blade

**Main cutting materials**

 Cardboard: 1-ply	 Wrapping, stretch and shrink foil
 Plastic strapping band	 Tape
 Layers of foil or paper	 Yarn, cord

**Installed blade**

**Optional blade**

	<b>NO. 65232C</b> 0.65 mm, ceramic, rounded blade tips, deep-edged
	<b>NO. 5232</b> 0.63 mm, deep-edged
	<b>NO. 5233</b> 0.63 mm, 1-sided ground-edge
	<b>NO. 610</b> 0.63 mm, stainless

	<b>NO. 56</b> 0.63 mm
	<b>NO. 5634</b> 0.63 mm, rounded blade tips

**Certificates and awards**

**Application**

**Safety technology**

**Automatic blade retraction – a high degree of safety**

The automatic blade retraction of the SECUNORM 500 guarantees a high degree of safety from cut injuries. As soon as you have started to cut, take your thumb off the slider. Then the blade will retract into the handle immediately after leaving the material being cut.

# THE PERFECT FIT FOR ALL. DOES THE PERFECT JOB.

## SECUNORM 500

- › For high cutting frequencies
- › Ergonomic handle for left and right handers
- › Very abrasion proof thanks to the aluminium
- › Automatic blade retraction
- › GS-certified for approved safety
