

SECUNORM PROFI25 MDP
THE ALL-ROUNDER THAT CAN GO DEEP.

THE SAFER WAY TO CUT.

martor

SECUNORM PROF125 MDP

NO. 120701

Original size

Metal detectable

While working, a cutting tool – or parts of it – can sometimes get lost. But only for a short while. Because the plastic that can be detected by a metal detector ensures that you find it again fast.

No paint

You would like to avoid risks in your job, wherever possible? That's understandable. An unpainted handle minimises the risk of contamination of the production process.

Robust handle

The plastic insert of the SECUNORM PROF125 MDP is in an aluminium handle. With its robust design, it is predestined for high cutting frequencies and a long life.

2-cutting edge blade

Before you have to change the quality blade, you can turn it around once. This doubles the usage time of the blade – and reduces the energy you use up. Because your product cuts like new again.

Tool-less blade change

Blade changing is quick to work out. Literally. You just need to slide the metal detectable plastic insert out of the handle and replace the old blade with a new one.

**Professional in every respect. Metal detectable.
With rounded-tip trapezoid blade.**

Our SECUNORM PROFI25 MDP is aptly named. "PROFI" because this safety knife really does behave professionally. Whatever the situation, whatever the cutting material. The "25" is in reference to its impressive blade extension of 25 mm, with which even 3-ply cardboard can be cut. And finally, the "MDP" tag means that all plastic parts of this knife can be detected by a metal detector.

PRODUCT FEATURES

Technical features

 High safety	 Metal detectable
 X-ray detectable	 Tool-less blade change
 Very abrasion resistant	 Very ergonomic
 2-cutting edge blade	 Cutting depth
 Rounded-tip trapezoid blade	 For right and left handers
 Stainless	

Main cutting materials

 Cardboard: up to 3-ply	 Wrapping, stretch and shrink foil
 Plastic strapping band	 Tape
 Bagged goods	 Layers of foil or paper

Installed blade

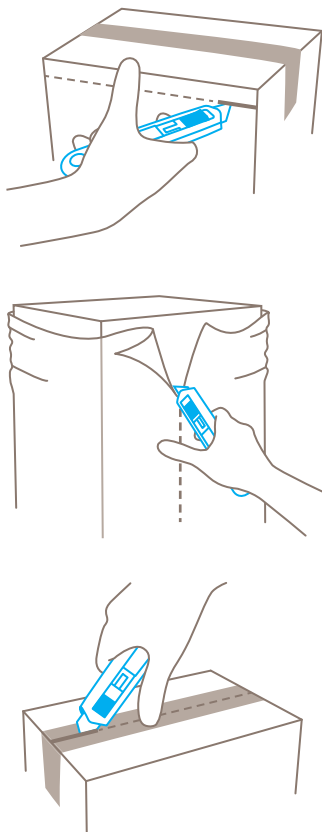

Optional blade

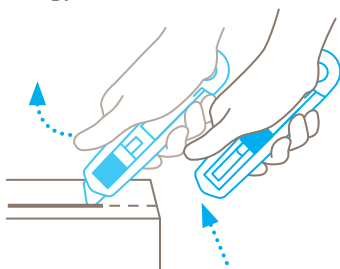

Certificates and awards

Application

Safety technology

Automatic blade retraction – a high degree of safety

The automatic blade retraction of the SECUNORM PROFI25 MDP guarantees a high degree of safety from cut injuries. As soon as you have started to cut, take your thumb off the slider. Then the blade will retract into the handle immediately after leaving the material being cut.

THE PERFECT FIT FOR ALL. DOES THE PERFECT JOB.

SECUNORM PROFIZ25 MDP

- › Large cutting depth
- › Very abrasion proof thanks to the aluminium
- › Metal detectable plastic
- › Automatic blade retraction
- › GS-certified for approved safety

PRODUCT DETAILS

Order No.	NO. 120701.02
Packaging unit	1 in single unit box (10 in multipack)
Knife size (L x W x H)	143 x 17 x 31 mm
Main material	Aluminium
Weight	84.5 g
Cutting depth	18 mm
Spare blade Packaging unit Size (L x W x Thickness)	NO. 160099.70 (10 in safety dispenser) 55.5 x 19 x 0.63 mm
Certified	GS certificate NO. 179404- 7116-55094-2020/2
Accessories	
BELT HOLSTER S WITH CLIP	 NO. 9920
HOLSTER SMALL	 NO. 9842
USED BLADE CONTAINER	 NO. 9810
WALL MOUNT BRACKET USED BLADE CONTAINER	 NO. 9845
SAFEBOX	 NO. 108000
MDP TEST CARD SET	 NO. 9910

CONTACT AND SERVICE

What makes our cutting solutions even safer? Our advisory services! We are always on hand, to give advice, to provide you with training material, to meet with you in person if necessary.

You will find further information on our website:
